Hi Legal / Security,

The transferring out email notice is the my knowledge about this incident. I would like gather more information about this legal proceeding surrounding this domain transfer.

Please provide the following information:

Hi Legal / Security,

More question:

4. Have ENOM INC / NameCheap filed Notice of Appeal on behave of Privacy Guard protected domain registered owners (including me and others in this case) ?

5. Does NOM INC /NameCheap plan to to file file appeal or take legal action in future to protect its customers and their registered domains ?

-- if ENOM INC stands to do nothing, all privacy guard customers and their registered domains are basically vulnerable for predatory parties

Ye

Hi Legal / Security,

I just got hold of the original court filing. Please see the attachment / PDF.

1. The document indicates their knowledge about ENOM inc as registrar, but didn't list ENOM or me as defendants.

Was ENOM involved in the legal process prior to the legal proceedings ?

2. If ENOM was in the legal process, as domain registered owner, why have I never been contacted ?

Ye

The primary and secondary domain name servers you designate for the Protected Domain;

The Protected Domain's original date of registration and expiration date; and

The identity of your registrar, domain name service provider (if different from registrar) and the status of the Protected Domain with the registrar (such as, "active," "Registrar Lock," "clienthold," etc.).

YOUR RIGHTS

You will retain the right to sell, transfer, or assign each Protected Domain.

You will retain the right to control and set the DNS settings for the Protected Domain(s).

You will retain the right to renew each Protected Domain name registration upon expiration (subject to your Namecheap's applicable rules and policies).

You will remain responsible to resolve any and all monetary or other legal claims that arise in connection with your Protected Domain(s), subject to the remaining provisions of this Proxy Agreement, the Whoisguard Services Agreement, and your Domain Registration Agreement and/or Hosting Services Agreement with Namecheap (collectively, "Agreements").

YOUR PERSONAL INFORMATION

You agree that for each Protected Domain, you will provide to Whoisguard and maintain as current and accurate, the following information:

- Your name, address, email address, postal address, phone and fax numbers;
- The name, address, email address, postal address, phone and fax numbers for the Protected Domain's administrative, technical, and billing contacts; and
- The primary and secondary domain name servers for the Protected Domain.

You agree to:

- Update this information immediately as it changes over time;
- Respond within five (5) business days to any inquiries made by Whoisguard to determine the validity of personal information provided by you;
- Promptly respond to messages regarding correspondence addressed to or involving your Protected Domain(s), as more fully set forth below.

If you do not supply primary and secondary domain name servers, you agree that Whoisguard or Namecheap may point your Protected Domain(s) to an IP address of its choosing until such time as you supply primary and secondary domain name servers.

RENEWAL AND FEES

If you have selected automatic renewal of the WHOIS Privacy Services administered by Whoisguard, you agree:

- That the WHOIS Privacy Services shall be automatically renewed 30 days prior to the end of term of your Domain Name Registration Agreement or Hosting Services Agreement with Namecheap;
- That Whoisguard will attempt to charge your Namecheap account at the then current rates;
- That you waive any requirement to obtain your ongoing affirmative consent to any such automatic renewal.

If you do not wish to automatically renew the WHOIS Privacy Services administered by Whoisguard, you agree that the exclusive method for communicating this shall be by logging into your Namecheap Account to ensure that the auto-renewal or renewal

option is not selected. You understand that you must do this at least 31 days prior to the end of the then current Term (as defined below).

It is your responsibility to keep necessary funds in your Namecheap Account. If Whoisguard is unable to collect renewal or other fees, you agree that Whoisguard may contact you, but is not obliged to do so, and you agree that Whoisguard may suspend or terminate the WHOIS Privacy Services as a result of inability to obtain payment.

TERM OF SERVICES

You understand that the term of WHOIS Privacy Services administered by Whoisguard begins on the date your attempt to purchase the WHOIS Privacy Services is accepted by Whoisguard and that it shall run for the unit of time which you order ("Term"). You understand that the Term may be different than the registration term of the Protected Domain which is associated with Namecheap. If a Protected Domain registration expires and is deleted before the end of the Term of the associated WHOIS Privacy Services, then the WHOIS Privacy Services associated with the domain will end when the Protected Domain is deleted and you understand that there will be no refund for any resulting unused portion of the Term. If the Term ends while the registration term for the Protected Domain is still ongoing, then the WHOIS Privacy Services will no longer be provided, the personal information specified in this Proxy Agreement shall be listed in the public WHOIS Directory output for the (then former) Protected Domain, and the communications forwarding services specified in this Proxy Agreement will no longer be provided.

YOUR REPRESENTATIONS & WARRANTIES

You represent and warrant that all information provided by you pursuant to this Proxy Agreement is truthful, complete, current and accurate and you represent and warrant that you will maintain all information in this status throughout the term of the Agreements.

You also represent and warrant that you are using the WHOIS Privacy Services in good faith and that you have no knowledge or reason to believe that your Protected Domain or the content found at any associated IP address infringes upon or conflicts with the legal rights of any third party or any third party's trademark or trade name.

You also warrant that neither the WHOIS Privacy Services nor Protected Domain(s) will be used in connection with any illegal or morally objectionable activity (as defined below), or, in connection with the transmission of unsolicited commercial email(s) ("Spam"). Further, you represent and warrant that you will not provide any third party with the WhoisGuard Addresses for the purpose of having such third party transmit communications to you through Whoisguard.

SUSPENSION OR TERMINATION AND DISCLOSURE OF YOUR PERSONAL INFORMATION

Notwithstanding your purchase of the WHOIS Privacy Services administered by Whoisguard, Namecheap reserves the right in its sole judgment and discretion to disclose your personal protected information, or instruct Whoisguard to disclose such information, in the event any of the following occur:

- If the Protected Domain(s) is (are) alleged to violate or infringe a third party's trademark, trade name, copyright interests or other legal rights of third parties;
- If you breach any provision of this Proxy Agreement;
- If you breach any provision of the Agreements incorporated herein by reference;
- If you breach any provision of your Domain Name Registration Agreement or Hosting Services Agreement with Namecheap;
- If necessary to comply with any applicable laws, government rules or requirements, subpoenas, court orders or requests of law enforcement;
- If Namecheap is named as a defendant in, or investigated in anticipation of, any legal or administrative proceeding arising out of your use of the WHOIS Privacy Services or a Protected Domain;
- If necessary to comply with ICANN's Dispute Resolution Policy or other policies promulgated by ICANN;
- If necessary to avoid any financial loss or legal liability (civil or criminal) on the part of Namecheap or its parent companies, subsidiaries, affiliates, shareholders, agents, officers, directors and employees;
- If necessary to protect the integrity and stability of the applicable domain name registry; or
- If it comes to Backend Service Provider's attention that you are alleged to be using the WHOIS Privacy Services administered by WhoisGuard for purposes of engaging in, participating in, sponsoring or hiding your involvement in illegal or morally

objectionable activities, including but not limited to, activities which are designed, intended to or otherwise:

- Appeal primarily to prurient interests;
- Defame, embarrass, harm, abuse, threaten, or harass;
- Violate state or federal laws of the united states and/or foreign territories;
- Involve hate crimes, terrorism or child pornography;
- Are tortious, vulgar, obscene, invasive of a third party's privacy, race, ethnicity, or are otherwise objectionable;
- Impersonate the identity of a third party;
- Harm minors in any way; or
- Relate to or transmit viruses, trojan horses, access codes, backdoors, worms, timebombs or any other code, routine, mechanism, device or item that corrupts, damages, impairs, interferes with, intercepts or misappropriates any software, hardware, firmware, network, system, data or personally identifiable information.

In the event Namecheap decides to take any of the actions set forth above or in the event you elect to cancel the WHOIS Privacy Services administered by Whoisguard for any reason, Namecheap shall not be liable for fees paid by you for the WHOIS Privacy Services administered by Whoisguard.

COMMUNICATIONS

You agree that from time to time, Whoisguard (and if applicable, Namecheap) will review communications sent to the WhoisGuard Addresses associated with your Protected Domain.

For communications received via certified or traceable courier mail (such as UPS, FedEx, or DHL), or first class mail which does not appear to be unsolicited commercial mail, you agree that Whoisguard may either i) forward such communication to you or ii) may attempt to communicate to you a scanned copy of a page of the communication to ascertain how you wish Whoisguard to proceed with respect to that communication.

You understand that Whoisguard may, in its own judgment and discretion, elect to not forward to you such first class postal mail or email, fax, postal mail or telephone communications which appear to be unsolicited communications, which offer or

advertize the sale of goods or services or which solicit charitable contributions, or communications which appear to arise from your use of the WHOIS Privacy Services administered by Whoisguard as a general mail forwarding service. You authorize Whoisguard to either discard all such communications or return all such communications to sender unopened.

You agree to waive any and all claims arising from your failure to receive communications directed to your domain name but not forwarded to you by Whoisguard, including such failures which arise from Whoisguard's mistake of judgment made in good faith in determining whether a communication is or is not an unsolicited communication.

The public WHOIS Directory generally requires an email address for every purchased domain name registration. When you purchase WHOIS Privacy Services administered by Whoisguard, an email address will be automatically generated for the corresponding Protected Domain (e.g. XXXXXX.protect@whoisguard.com). Thereafter, when messages are sent to the email address listed in the WhoisGuard Address, Whoisguard will forward such messages to the email address you provided to WhoisGuard, in accordance with this Proxy Agreement. If such email address becomes non-functioning or if the email to such address bounces, WhoisGuard shall not be obligated to attempt to contact you through other means. You agree that WhoisGuard may elect in its sole discretion, to allow you to access the email server logs if available and view email information sent to the Whoisguard Addresses, though such alternative means of servicing your Account is an option and not a requirement.

When Whoisguard receives a communication to the Protected Domain, Whoisguard will send an email to the email address you provided to Whoisguard in accordance with this Proxy Agreement. The email message from Whoisguard to you will identify the sender of the correspondence and the date received. As an alternative, you agree that Whoisguard may allow you to access your account to view full or partial scanned copies of (non-email) communications sent to the Protected Addresses and that you may be required to interact with your account to have the physical originals of such communications forwarded to you and that if you do not interact with your account in the ways indicated upon accessing your account, that the communications may not be forwarded to you. In either event, you will have seventy-two (72) hours to decide whether to have the communication(s) forwarded. If you do not respond within this time period, the communication(s) will not be forwarded. Method of forward will be

determined by Whoisguard. Communication(s) may not be immediately forwarded upon your election; there may be a delay and communication(s) may be aggregated to be forwarded together.

You agree to submit to fees where Whoisguard may begin charging fees for forwarding communications or may change the method by which communications are forwarded without written notice.

In the event you do not respond to communications from Whoisguard, irrespective of whether Whoisguard is forwarding an email or making an unrelated inquiry or communication, Whoisguard may immediately reveal the information you provided in accordance with this Proxy Agreement and/or cancel the WHOIS Privacy Services regarding either the Protected Domain in question or with respect to all of your Protected Domains, depending on the circumstances. This means the Whois directory will revert to displaying your name, postal address, email address and phone number.

LIMITATION OF LIABILITY

UNDER NO CIRCUMSTANCES SHALL NAMECHEAP BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, PUNITIVE, SPECIAL, OR CONSEQUENTIAL DAMAGES FOR ANY REASON WHATSOEVER RELATED TO THIS PROXY AGREEMENT, YOUR DOMAIN NAME REGISTRATION, THE WHOIS PRIVACY SERVICES ADMINISTERED BY WHOISGUARD, YOUR USE OR INABILITY TO USE THE NAMECHEAP WEBSITE(S) OR THE MATERIALS AND CONTENT OF THE WEB SITE(S) OR ANY OTHER WEB SITES LINKED TO SUCH WEB SITE(S) OR YOUR PROVISION OF ANY PERSONALLY IDENTIFIABLE INFORMATION TO BACKEND SERVICE PROVIDER OR ANY THIRD PARTY. THIS LIMITATION APPLIES REGARDLESS OF WHETHER THE ALLEGED LIABILITY IS BASED ON CONTRACT, TORT, WARRANTY, NEGLIGENCE, STRICT LIABILITY OR ANY OTHER BASIS, EVEN IF NAMECHEAP HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR SUCH DAMAGES WERE REASONABLY FORESEEABLE. BECAUSE CERTAIN JURISDICTIONS DO NOT PERMIT THE LIMITATION OR ELIMINATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, NAMECHEAP'S LIABILITY IN SUCH JURISDICTIONS SHALL BE LIMITED TO THE GREATEST EXTENT PERMITTED BY LAW. IF ANY PROVISION OF THIS LIMITATION OF LIABILITY IS FOUND TO BE UNENFORCEABLE, ONLY SUCH PROVISION SHALL BE REMOVED AND THE REMAINDER SHALL BE ENFORCED TO THE GREATEST EXTENT PERMITTED BY LAW.

You further understand and agree that Namecheap disclaims any loss or liability resulting from:

- The inadvertent disclosure or theft of your personal information;
- Access delays or interruptions to the whoisguard website or the websites of affiliated parties;
- Data non-delivery or inaccurate delivery between you and the providers of the services;
- The failure for whatever reason to renew the WHOIS Privacy Services;
- The unauthorized use of your account or any of the providers of services;
- Errors, omissions or misstatements by providers of services;
- Deletion of, failure to store, failure to process or act upon email messages sent to or forwarded to either you or the email address listed for your protected domain;
- Processing of updated information regarding your account;
- Any act or omission caused by you or your agents (whether authorized by you or not).

YOU AGREE THAT, IN ANY EVENT, THE PRIMARY AND BACKEND SERVICE PROVIDERS' RESPECTIVE MAXIMUM LIABILITY TO YOU SHALL BE CAPPED BY THE LESSER OF THE AMOUNT OF FEES PAID BY YOU TO EACH SERVICE PROVIDER IN THE PRECEDING YEAR WITH RESPECT TO THE SERVICES WHICH GAVE RISE TO THE LIABILITY OR \$100.00 PER PROTECTED DOMAIN.

INDEMNITY AND DEFENSE

With respect to ICANN, the registry operators, and Namecheap, as well as the contractors, agents, employees, officers, directors, shareholders, and affiliates of such parties, you agree to defend, release, indemnify, and hold such parties harmless from all liabilities, claims and expenses, including attorney's fees and court costs, for third party claims relating to or arising under the Proxy Agreement, the WHOIS Privacy Services provided hereunder, or your use of the WHOIS Privacy Services, including, without limitation, infringement by you, or by anyone else using the WHOIS Privacy Services provided to you, of any intellectual property or other proprietary right of any person or entity, or from the violation of any of Namecheap's operating rules or policies relating to the WHOIS Privacy Services provided.

When Namecheap may be involved in a suit involving a third party and which is related to the WHOIS Privacy Services administered by Whoisguard to you under this Proxy

Agreement, Namecheap may seek written assurances from you in which you promise to defend, indemnify and hold Namecheap harmless from the costs and liabilities described in this paragraph. Such written assurances may include, in Namecheap's sole discretion, the posting of a performance bond(s) or other guarantees reasonably calculated to guarantee payment. Your failure to provide such assurances may be considered by Namecheap to be a breach of this Proxy Agreement by you and may, in Namecheap's sole discretion, result in loss of your right to control the disposition of domain name services for which you are the registrant and in relation to which Namecheap is the registrar of record.

Should Namecheap be forced to defend itself in any action or legal proceeding in connection with any WHOIS Privacy Services provided to you, you shall have sole responsibility to defend Namecheap against any such claim by legal counsel of its choosing. This indemnification is in addition to any indemnification required under the Uniform Domain Name Dispute Resolution Policy ("UDRP").

You agree to release, defend, indemnify and hold harmless the Primary and Backend Service Providers, and their parent companies, subsidiaries, affiliates, shareholders, agents, directors, officers and employees and Your registrar, from and against any and all claims, demands, liabilities, losses, damages or costs, including reasonable attorney's fees, arising out of or related in any way to the Agreements, the web sites of the Service Providers, your Account, and/or your use of your Protected Domain.

The terms of this Section will survive any termination or cancellation of this Proxy Agreement.

BACKEND SERVICE PROVIDER WARRANTY DISCLAIMER

THE BACKEND SERVICE PROVIDER, ITS PARENT COMPANIES, SUBSIDIARIES, AFFILIATES, SHAREHOLDERS, AGENTS, DIRECTORS, OFFICERS, AND EMPLOYEES EXPRESSLY DISCLAIM ALL REPRESENTATIONS AND WARRANTIES OF ANY KIND IN CONNECTION WITH THIS PROXY AGREEMENT, THE SERVICES PROVIDED HEREUNDER, THE WEB SITES OF THE BACKEND SERVICE PROVIDER OR ANY WEB SITES LINKED TO SUCH WEB SITES, WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. SERVICE PROVIDER SERVICES, AS WELL AS THE BACKEND SERVICE PROVIDER WEB SITE, ARE PROVIDED "AS IS". YOUR SUBSCRIPTION TO AND USE OF BACKEND SERVICE PROVIDER'S SERVICES AND ITS WEB SITE ARE ENTIRELY AT YOUR RISK. SOME JURISDICTIONS DO NOT ALLOW THE DISCLAIMER OF IMPLIED WARRANTIES, IN WHICH EVENT THE FOREGOING DISCLAIMER MAY NOT APPLY TO YOU. IF ANY PROVISION OF THIS LIMITATION OF LIABILITY IS FOUND TO BE UNENFORCEABLE, ONLY SUCH PROVISION SHALL BE REMOVED AND THE REMAINDER SHALL BE ENFORCED TO THE GREATEST EXTENT PERMITTED BY LAW.

GOVERNING LAW AND JURISDICTION FOR DISPUTES

Except as otherwise set forth in the UDRP or any similar ccTLD policy with respect to any dispute over a domain name registration this Proxy Agreement, your rights and obligations and all actions contemplated by this Proxy Agreement shall be governed by the laws of the United States of America and the State of California.

You agree that any action brought by you to enforce this Proxy Agreement or any matter brought by you and which is against or involves Namecheap and which relates to your use of the Services shall be brought exclusively in the United States District Court for the Central District of California, or if there is no jurisdiction in such court, then in a state court in Los Angeles County, State of California.

FINAL AGREEMENT

This Proxy Agreement, the referenced agreements incorporated herein, the ICANN Policy and the UDRP, together with all modifications, constitute the complete and exclusive agreement between you and Namecheap, and supersede and govern all prior proposals, agreements, or other communications. NO AGENCY RELATIONSHIP

Nothing contained in this Proxy Agreement shall be construed as creating any agency, partnership, or other form of joint enterprise between the parties hereto. Each party shall ensure that the foregoing persons shall not represent to the contrary, either expressly, implicitly, by appearance or otherwise.

NO WAIVER

Any failure on the part of Namecheap to require your performance of any provision hereof shall not affect the full right to require such performance at any time thereafter; nor shall the waiver by Namecheap of a breach of any provision hereof be taken or held to be a waiver of the provision itself.

ENFORCEABILITY

In the event that any provision of this Proxy Agreement shall be unenforceable or invalid under any applicable law or be so held by applicable court decision, such unenforceability or invalidity shall not render this Proxy Agreement unenforceable or invalid as a whole. Namecheap will amend or replace such provision with one that is valid and enforceable and which achieves, to the extent possible, the original objectives and intent as reflected in the original provision.

ASSIGNMENT AND RESALE

Except as otherwise set forth herein, your rights under this Proxy Agreement are not assignable or transferable. Any attempt by your creditors to obtain an interest in your rights under this Proxy Agreement, whether by attachment, levy, garnishment or otherwise, renders this Proxy Agreement voidable at the option of Namecheap.

FORCE MAJEURE

Neither party shall be deemed in default hereunder, nor shall it hold the other party responsible for, any cessation, interruption or delay in the performance of its obligations hereunder due to causes beyond its control including, but not limited to: earthquake; flood; fire; storm; natural disaster; act of God; war; terrorism; armed conflict; labor strike; lockout; boycott; supplier failures, shortages, breaches, or delays; or any law, order regulation, direction, action or request of the government, including any federal, state and local governments having or claiming jurisdiction over Namecheap or its affiliates, or of any department, agency, commission, bureau, corporation or other instrumentality of any federal, state, or local government, or of any civil or military authority; or any other cause or circumstance, whether of a similar or dissimilar nature to the foregoing, beyond the reasonable control of the affected party, provided that the party relying upon this Section

shall have given the other party written notice thereof promptly and, in any event, within five (5) days of discovery thereof and

shall take all steps reasonably necessary under the circumstances to mitigate the effects of the force majeure event upon which such notice is based; provided further, that in the event a force majeure event described in this Section extends for a period in excess of thirty (30) days in the aggregate, Namecheap may immediately terminate this Proxy Agreement.

Google's WHOIS Privacy Service **Terms of Service**

WHOIS Privacy Service Terms of Service

Last modified: September 01, 2015

By activating the Whois Privacy service offered by WhoisProxy.com Ltd., the customer ("registrant") agrees to the following additional terms and conditions.

1. The whois privacy service ("service") is offered as an optional and supplemental service for individual registrations of domain names and is available for new and existing domain names registered with a registration service provider ("registrar") cooperating with the Whois privacy service provider ("service provider"). The registrant may designate any domain name (certain TLDs may be excluded from the service due to registry policy) he controls or acquires to be registered in the name of the service provider. The registrant may elect to disable the service at any time to replace the whois data with his own personal data.
2. The registrant shall retain full control and ownership over and remain the legally responsible owner of the domain name. The registrant maintains full liability for the registration and use of the domain name and agrees to release, defend, indemnify and hold harmless the whois privacy service provider, its parent companies, subsidiaries, affiliates, shareholders, agents, directors, officers and employees, the registrants' registration service provider as well as registrar, from and against any and all claims, demands, liabilities, losses, damages or costs, including reasonable attorney's fees, arising out of or related in any way to the domain registration itself, the privacy services provided and/or the registrants' use of his domain name registration.
3. The registrant agrees to provide and maintain true, accurate and up-to-date registration information for the domain name owner, admin, billing and technical contacts, as provided for in the general registration agreement with his registration provider, including his name, postal address, email address, phone and fax numbers. The registrant warrants the accuracy of this information. The registrant further agrees that all actual registration information will be maintained in a database by the registration service provider and escrowed with a third party provider (gTLDs only - the data will not be escrowed for ccTLD domain names). The service provider shall keep this information confidential, subject to section 5 of this agreement. In case of the use of inaccurate, fake or outdated information, the service provider is entitled to take all necessary actions to avoid legal or financial liability in the registrants' stead, including, but not limited to the deletion of the domain name or the deactivation of the service.
4. In place of the registrants' contact information, the following data shall be displayed in the whois information for the registrant of each domain name included in the service, unless the registration requires different data to be used to ensure management of a domain name by the registration service provider: An individual, but anonymous string identifying the registrant
 - o Postal address of the service provider;
 - o Phone number of the service provider;

- An automatically generated temporary anonymous individual email address redirecting all communications to the email address provided by the registrant;
 - A status/information notice of the service provider.
- 5. The registrant agrees that the service provider may at any time and at its sole discretion suspend and disable the service without liability to the registrant and to reveal registrant and contact Whois information for any reason. Such reasons include but are not limited to:
 - failure to provide payment for the service; breach of any provision of this agreement or the registration agreement with the registration service provider; requirement by law;
 - compliance with a registry request, a court order or a law enforcement agency request;
 - receipt of a legal complaint regarding the use or registration of a domain name;
 - receipt of a formal request from an UDRP service provider;
 - receipt of a formal request from an alternative dispute service provider;
 - for the resolution of any and all third party claims;
 - for the avoidance of financial loss or legal liability of service provider, its parent companies, subsidiaries, affiliates, shareholders, agents, officers employees and directors;
 - good faith belief or third party complaint of illegal or morally objectionable use of the domain name, especially use to transmit SPAM, viruses, worms or other harmful computer programs;
 - good faith belief or allegation of use of the service to conceal involvement with illegal, illicit, objectionable or harmful activities;
 - good faith belief or allegation that the registration violates or infringes upon the legal rights of a third party, or any third-party trademark or trade name;
 - good faith belief that disclosure is necessary to further determination of an alleged breach of a law;
 - use of the domain name for commercial purposes directed at the provision of goods and/or services, where the website(s) do not contain valid or complete contact information;
 - the deletion of a domain name.
- 6. The suspension or termination of the service will result in the immediate disclosure of the registrant's information in the whois as well as to third party claimants. The service provider will endeavour to give the registrant a notice of 24 hours before the service is disabled.
- 7. The service provider shall not be held liable for delays of services and interruptions due to higher force, fault of third parties or due to events not under reasonable control or influence of the service provider, despite any agreed upon deadlines and dates. The registrant hereby permits service provider to postpone the supply of service by the duration of the respective disruption plus an appropriate starting time. Furthermore service provider can limit the service, if the stability and security of the operation, the maintenance of the net integrity, in particular the avoidance of serious disturbances of the network, the software or stored data requires it. For all services liability of service provider will be limited to intention and gross negligence to the amount paid by the registrant for the specific service. In every other case, liability is capped at the amount of damage that are typically foreseeable at the time the agreement.

8. The fees for the service are charged through the registration service provider. The current fees are published without engagement on the website of the registration service provider and can be changed at any time. For renewal of the service the price on the day of the renewal applies. At the end of a term, the service is automatically renewed for another term unless terminated by the registrant. In cases of termination or suspension of the service or the deletion or transfer of the domain name, no partial refunds of the service fee for the remaining term is possible. Additional fees may apply in case of fees applicable for changes in the registrant information of a domain name.
9. The service provider retains the right to refuse any transfer request or request for an authorization code for a domain name by the registrant as long as the service is enabled.
10. The service provider may exclude certain top level domains from the service.
11. Any email sent to the automatically generated temporary anonymous individual email address will be redirected to the email address provided by the registrant. The service provider is not obligated to contact the registrant via another method should his email address become non-functional. In order to protect registrant from spam the generated email address will only work for a period of 14 days after the whois query was made.
12. The service is not a mail forwarding service and the registrant therefore agrees not to provide any third party with the data used by the service provider for the purpose of having such a third party transmit communications to the registrant through the service provider. Communications by third parties to the postal address of the registered name holder will not be forwarded to the registrant, and registrant agrees that service provider may review, return, destroy and/or discard all communications directed at the domain name registrant. The service provider will include an appropriate disclaimer in the whois data. The registrant agrees to waive any and all claims arising from his failure to receive communications directed at the domain name.
13. Modifications to the terms and conditions or the contract, as well as cancellations will only be accepted in writing, which includes E-Mail transmissions. Oral agreements shall not be considered valid.
14. For legal entities in New Zealand, as well as for all registrants without permanent residence in New Zealand, Wellington/ NZ will be the exclusive place of jurisdiction, as well as the place of fulfillment. For the contract between service provider and its registrants the NZ law is the only effective law.
15. If any provision of these terms and conditions shall be or become unenforceable and/or invalid, such unenforceability and/or invalidity shall not render these terms and conditions unenforceable or invalid as a whole. Any provision determined to be unenforceable or invalid shall be replaced by provisions which are valid and enforceable and closest to the original objectives and intents of the original provisions in an economic and legal sense that would have been agreed upon by the parties, had they known of the invalidity at the time of the agreement to these terms and conditions.

Dallas Judges Shred Constitution, Steal Millions

In a series of events most would normally dismiss as outlandish, one American citizen was launched from civil court into a legal limbo where for years he was deprived by a federal judge of counsel, property, speech and travel. The case seems unthinkable in the American judicial system, but the story is true, and it happened to one Jeff Baron.

Jeff Baron is a Dallas resident and U.S. citizen who was put into “virtual slavery” by U.S. District Court Judge Royal Furgeson after Baron settled an otherwise ordinary contract dispute in his court. Although Baron was never accused of any crime and had just resolved the dispute in Furgeson’s court, Furgeson seized the sum total of Baron’s personal property and possessions, including his home and car, and suspended nearly all of his civil rights, including his right to be represented by counsel, right to own property, right to earn income, and right to travel. Four years later, Baron was still in civil lockdown – even after the U.S. Fifth Circuit Court of Appeals reversed the unlawful rulings and enjoined any further liquidation of Baron’s property.

Immediately preceding Baron’s civil lockdown is the November 2013 auction and sale of 153,000 internet domain names owned by Baron’s company, Ondova, LLC. The domain names were auctioned to Trans, Ltd. for \$5.2 million, reports the Dallas Observer, and can be traced back to Judge Furgeson. The U.S. 5th Circuit Court of Appeals ruled that Judge Furgeson’s court “overstepped its authority,” and the Observer notes that Furgeson’s “decision enabled a federal bankruptcy judge to order the November auction.”

More than just an illegal transfer of domain names occurred in the lead-up to the unprecedented actions against Baron. Critics of Baron, including Judge Furgeson, allege that he was “hiring and firing” an endless parade of highly qualified lawyers, delaying justice and actually harming his own case, while Baron supporters cite widespread corruption. Baron also took Ondova into bankruptcy in 2009, immediately preceding a hearing to determine whether he was in contempt of court, according to the Dallas Observer.

“I’ve never seen anything like it in almost 25 years practicing law,” California attorney Conrad Herring told The Daily Caller News Foundation.

Do You Think U.S. District Court Judge Royal Furgeson Was Bill Clinton's Worst Judicial Appointment?

Yes No

Completing this poll entitles you to Daily Caller news updates free of charge. You may opt out at anytime. You also agree to our [Privacy Policy](#) and [Terms of Use](#).

Herring got involved when he encountered the same court officers in a routine bankruptcy case, recounting that not only did they, “make up the facts against my client, they named me as a defendant as well, claiming I had breached a contract to which I was not even party.”

Forcing a lawyer to stand trial in his own case is illegal.

“Their unlawful strategy was to get rid of the lawyer so they could get to my unprotected client and his money,” Herring charges. “The very same people who abused the court system against my client were doing the same thing to Jeff, only on a much grander scale,” said Herring, explaining his interest in the case.

Court documents related to the case corroborate Herring and Baron's statement.

Background

Jeff Baron is an internet pioneer and the former owner of a Ondova, a technology company during the early days of the public web. Baron earmarked nearly all of his vast wealth, which was \$100 million at its height, to finding a cure for juvenile (type 1) diabetes— a disease afflicting Baron since childhood.

The trouble began when Ondova entered a joint venture with Munish Krishan, a man who Baron alleges embezzled \$8 million, prompting Baron to sue for damages. After this, Krishan sued Baron six times, attempting to take the rest of the company's assets. Krishan lost all six times.

When Kirshan sued a seventh time, the case came to Judge Furgeson's court and Krishan won, forcing Baron to settle the case. Furgeson inexplicably put Baron into "receivership" (an extreme legal remedy imposed on property, not humans), along with his companies and all of his possessions, having his rights to mobility, free speech, ownership of property, and right to legal representation totally eliminated.

According to a January 2015 report at Texas Insider, this is the first reported case of a human being placed in a receivership since the abolition of slavery in 1865.

"The receiver assigned to Baron's case is Peter Vogel, an attorney who, before presiding over Baron's company and personal assets, was a special master (adjunct judge) in Judge Furgeson's court. Vogel's appointment as receiver is illegal, according to 28 U.S.C. 958, which mandates that a person employed by any judge of the United States may not at the same time be appointed a receiver," reports Texas Insider.

Court transcripts obtained by TheDCNF reveal that Judge Furgeson, a Bill Clinton appointee, openly admitted during court proceedings that his goal was to destroy Baron financially and personally.

"Apparently, there is a lot of money to be had here," stated Furgeson. "You want to challenge the court order, I have the marshals behind me. I can come to your house, pick you up, put you in jail. I can seize your property, do anything I need to do to enforce my orders."

"This [proceeding] is going on and on and on until Mr. Baron has nothing. I mean actually everything is depleted. I gather that Mr. Baron is worth a lot of money. But it may be that we

sell all the domain names. We may sell all of his stock. We may cash in all of his CDs, and we may seize all of his bank accounts,” continued Furgeson.

Furgeson did just that, also taking control of and liquidating the juvenile diabetes research trust that Baron created. Furgeson even threatened Baron’s very life if he attempted to resist the illegal actions of the court.

“You are a fool, a fool, a fool, a fool to screw with a federal judge, and if you don’t understand that, I can make you understand it ... I have the full force of the Navy, Army, Marines and Navy behind me,” Furgeson thundered. “So any failure to comply with that order is contempt, punishable with lots of dollars, punishable by possible jail, death.”

In America, the Constitution guarantees citizens the right to due process and a speedy public trial. Baron did not have his day in court guaranteed by the Constitution. In fact, the court order putting Baron into receivership was done “ex parte” in a private meeting between Baron’s adversaries and the judge, without any notice or hearing— an egregious violation of Baron’s constitutional rights. Daniel Sherman, the attorney who requested the receivership, admitted under oath that he met “ex parte” with Judge Furgeson for the purpose of putting Baron in a receivership.

“They did it without any due process; no right to a hearing; no right to object before the receivership order was signed; not even the right to notice of the order until after a federal district court judge signed it,” stated Herring. “That happens in other countries, not the United States.”

On the legality of the receivership, Herring is adamant. “It was all illegal of course, as the Fifth Circuit Court of Appeals ruled two years later, after the damage was done. Jeff was worth millions of dollars before the illegal receivership was imposed on him. The criminals, for that is what they are, wanted his money and saw a way to take it using their fiduciary positions and a judicial system they helped corrupt.”

Herring explains, “The system is obviously broken. Two federal judges looked the other way for years and often times rewarded the corrupt behavior. Perhaps the judges were unwitting participants, but they were in charge.” Herring says that what happened to Baron “can happen to anyone.”

Furgeson now collects two federal pensions: One from the University of North Texas, where he now serves as the dean of law, and his lifetime pension from serving on the bench, at \$175,000 a year for federal judges.

New Developments – Tax Insanity, Court-Ordered Destruction of Documents, and Immunity

Since the reversal of Furgeson's "receivership" order and related subsequent orders, immunity was granted to all the attorneys and other parties for their illegal actions against Baron. No one will go to jail.

Herring faults "trickle-down lawlessness," owing to an accountability vacuum created by political leadership, for the absence of any real consequences for bad actors. "It comes from the top—down lawlessness by the people appointed at the highest level to enforce the law," said Herring. "Judges and attorneys are able to see just how far they can go in violating the rights of a citizen, in this case Jeffrey Baron, a talented entrepreneur with a successful product," Herring said.

In spite of the Fifth Circuit's reversal of Furgeson's ruling, millions of dollars are still missing, which begs the question, where did the money go? We may never know, because the courts have sealed, and possibly destroyed, the relevant documents.

Baron's documents, which may reveal the location of his assets, are permanently sequestered by the court (Order Denying Baron's Motion to View Sealed Documents issued Sept. 23, 2015). The U.S. 5th Circuit Court of Appeals also rejected appeals for Baron to see the documents.

The court also ordered the destruction of many of the sealed records belonging to Baron in August 2015 (Munish Krishan, et al. v. Jeff Baron, et al. U.S. District Court for the Northern District of Texas, case #09-CV-0988). The official court entry on Aug. 31, 2015 states: "Appeal Record Returned consisting of 22 boxes containing the sealed records on appeal and 3 folders of exhibits. Sealed electronic record destroyed. Exhibits to be retained until all appeals are adjudicated."

Destruction of evidence is a criminal offense. And so is tax evasion.

Baron is being required to pay the taxes on the millions stolen from him (Munish Krishan, et al. v. Jeff Baron, et al. U.S. District Court for the Northern District of Texas, case #09-CV-0988). To clarify, Baron is paying taxes on money that was taken by attorneys in income, and has not been returned. Attorneys not only stole money, but are not having to pay taxes on it. There is no basis in tax law for requiring an individual citizen pay someone else's taxes.

Some big names in politics took notice of the Dallas case, and spoke up.

In two separate interviews, former House Majority Leader Tom Delay called the court's actions (past and present), "totally unconstitutional" and demanded the judge's impeachment.

Said Delay in a Jan. 19, 2015 interview with Texas Insider, "I'm not a lawyer, but with this case ... I would introduce a resolution of impeachment of Judge Furgeson. He has completely violated the law and the Constitution. Again, I am not a lawyer, but it is obvious to me as a student of the Constitution that these rulings are totally unconstitutional; they violate the 1st, 4th, 5th, and 6th Amendments, and therefore, if this judge were still on the bench, he ought to be impeached."

In a followup video interview, DeLay said the corruption on the court is "pervasive. And it's pervasive throughout our system because the other two branches of government are not standing up and exerting their authority under the Constitution against the judiciary."

Jeff Baron is an Internet pioneer who, at the age of 32, invented a technology in the early days of the Internet to make it easier to register Internet domain names. Jeff quickly became successful. His business was profitable and made money.

But today, Jeff Baron does not even own the shirt on his back; Tens of millions of dollars have disappeared due to the actions of two federal judges and a small army of unscrupulous Texas attorneys.

How Have the Lawyers Been Able to Label Jeff "Vexatious Litigant"?

It is important to understand that the sole motivation behind the persecution of Jeff is money. One must realize that numerous lawyers have all cooperated together to achieve the same goal--to take Jeff's assets and use them to pay themselves. To achieve the goal, the lawyers developed a well-orchestrated, long-term plan. In fact, all of Jeff's seized assets have been used to pay the same lawyers who put Jeff in the receivership (over \$4 million)--100%. Not a penny has been used to pay alleged creditors.

The premise of this elaborate plan was to seize all Jeff's assets to enrich themselves. With the help of the Judges and their court liaisons, the plan was created.

Several of the players in Jeff's case, including Judge Royal Furgeson and Charla Aldous are connected to similar cases of alleged impropriety. In the case highlighted in the story below, Judge Furgeson's wife is partner in the law offices of Stephen Malouf, who is partner of Charla Aldous (Judge Furgeson permitted Aldous to make a \$7 million intervention in Jeff's case for performing a few weeks of work). Public record's reveal that since at least 2003 up to and including 2010 Judge Furgeson's wife has received compensation consisting of "Salary, Partnership distribution, and Trust-Salary" from Charla Aldous' partner. There is no indication the remuneration has ceased. [Click Here to view the Amicus Curiae Brief Regarding Judge Royal Furgeson, Jr.](#)

Judicial Activism Goes Berserk

Article written by Carey Branstetter

In a pending civil lawsuit in a Texas Federal Court, a constitutional nightmare is occurring that could have ominous consequences for all Americans. In violation of the Constitution, The activist federal judge in this case has made a U.S. business owner essentially a slave without any due process or hearing. All of the relevant details of this profoundly disturbing case are summarized at the case overview tab on LawInjustice.com.

No case in recent judicial history resembles more of a Stalinist show trial. The conduct appears to be more corruption than merely judicial activism and the litany of outrages occurring are almost beyond belief.

Receivership Ruling Is "Reversed", Restoring (some) Civil Rights

The Court of Appeals has ruled that the receivership over Jeff was "abuse of (the judge's) discretion".

The ruling "reverses" the receivership that has left Jeff without his civil rights and assets for over two years. According to the ruling, Jeff's freedom to travel, to enter into transactions and to own possessions will "soon" be restored, although he is left penniless. Presumably, his right to hire a lawyer will also be restored, but does not seem to be left with any money to do that. The diabetes research trust that Jeff founded also appears to be left without any funds.

Federal judge puts Internet pioneer in civil lockdown

When Jeff Baron came to Washington this month, he was wearing a borrowed suit.

Once upon a time, the Internet pioneer -- who taught himself computer programming and created innovative software to register domain names -- lived the good life in a Dallas suburb.

His company, Ondova, was a cash cow, pulling in \$1.5 million in profit each month.

Diabetes Research Trust Ordered Liquidated for "2 cents on the Dollar"

2/12/2012 Update

In a grand finale, on January 31, 2012, Judge Furgeson granted Peter Vogel's request to sell the remaining assets in the trust Jeff established to fund diabetes research. These assets, valued by Vogel at \$60 million, are ordered sold for 2 cents on the dollars, in secret sales to undisclosed buyers. Insiders? The proceeds of over \$ 1. million, from the trust's liquidation (valued by the adversaries at over \$60 million) will go right into the bulging pockets of Mr. Vogel and his associates. Mr. Vogel's victims now include the millions of diabetes suffers whose lives would have been bettered through the contributions from this trust. The related documents are listed

Notable Quotes of Appellate Lawyer, Gary N. Schepps*

"The suspension of Mr. Baron's constitutional rights and seizure of his assets has absolutely no basis in law and is a gross violation of the US Constitution. . . .The District Court's order appointing receiver was issued without due process for a clearly improper and unconstitutional purpose. The damages being inflicted upon Mr. Baron by virtue of the order are very real, harsh, irreparable and immediate."

"My concern is that the Fifth Circuit has to make a choice. Do they acknowledge that there are a bunch of dishonest attorneys who have tried, literally, to conspire together to steal money from Jeff? Or, do they throw Jeff under the bus to 'protect' the 'good name' of the legal profession?"

Client Hijacked to Pay Legal Fees

Article written by John W. Toothman, commenting on a story published by tabloid, "Texas Lawyer", regarding Jeff's case. Mr. Toothman is a lawyer and co-author of "Legal Fees: Law & Management" and is also the author of blog.civiliansguidetolawyers.com

Normally a client may hire and fire lawyers at will, subject only to the lawyer agreeing to be retained. If there's a dispute over the fees, it gets resolved in the normal course in a court proceeding or perhaps by a special fee arbitration proceeding. But the claims of lawyers for payment of their fees are not special, although in bankruptcy, for example, certain claims do have priority otherwise no one would take on bankruptcy cases.

Lawyers' "Claims" against Jeff Baron

When even the most basic evidence is examined, it is clear that Jeff paid his lawyers in full pursuant to the terms of their engagement agreements. The groundless nature of the claims are from attorneys' own documentation and sworn testimony:

- Attorney Stanly Broome wants more than the \$10,000.00 per month capped fee he was paid. His claim is that his contract does not contain any term limiting the amount of fees which may be incurred by the attorneys in any month. However, Broome's assertion is so groundless that it is hard to imagine anyone making it with a straight face. Broome's contract contains a clear provision expressly limiting the amount of fees which may be incurred by the attorneys to \$10,000.00 per month.

Why Were So Many Lawyers Involved in Jeff's Case?

In the dispute that preceded the receivership—a dispute that lasted five years, Jeff, Ondova, the diabetes research trust, and several separate companies were forced to defend numerous suits in federal and state court in multiple jurisdictions (California, US Virgin Islands, Texas, the 9th Circuit Court of Appeals—which ruled in Jeff favor) brought by Krishan/Netsphere/MacPete. It appeared that Krishan/MacPete's tactic was to file an abundance of lawsuits in hopes that Jeff would not be able to sustain the assault and bankrupt Jeff.

The trustee of the research trust insisted on independent counsel for the trust and trust companies; therefore, the number of attorneys required to defend the suits was very large. Prior to Judge Furgeson's court where the

receivership was initiated, Jeff and the defendants were successful in every suit.

Are the Court and Peter Vogel engaging in Victim Blaming?

Victim Blaming is an age-old psychological tactic used by wrongdoers, including some governments, to demonize their victims. In doing so, the perpetrator deflects responsibility of his wrongful acts and directs responsibility to the victim, himself. In its sinister form, the perpetrator utilizes propaganda, lying and fabricating events to make the victim appear evil.

Why Does Jeff Baron's Case have the Potential to Affect All Americans

This case is more than simply about Jeff Baron. It is about our government's encroachment on the fundamental tenets and values that we Americans have fought more than 200 years to maintain. The precedent that this case is setting may well impact the lives of all Americans and the rights we take for granted—such as our fundamental right to own property. In deciding whether this case should concern you, you should ask yourself two basic questions:

1. Should the government (in this instance a US judge) be permitted to seize all of your property (your home, bank accounts, car, clothing, etc...) and arbitrarily redistribute it without a hearing, trial, judgment?
2. Should the government (in this instance a US judge) be entitled to prevent you from being represented by counsel of your choice (when you have money to pay a lawyer)?

Why is Jeff Being Denied a Jury?

The jury is the cornerstone of a fair justice system. Recognizing this is the case, the framers of our Constitution provided Americans with guarantees of jury trials in the Fifth, Sixth and Seventh Amendments.

The American justice system is designed for juries to work hand-in-hand with judges to render fair and just decisions. In proceedings involving honest judges, this system works extremely well, while in proceedings involving a corrupt process, juries perform an even more important role. In these proceedings, juries provide an obstacle to the corruption, albeit not an insurmountable one, because juries have the opportunity to render an independent decision. For a victim of a corrupt judicial process, in which the result is preordained by the judge,

the jury provides the only hope for justice.

Sunday DMN article by Cheryl Hall Diamond dispute cuts deep. The attorney from Nashville who is defaming Diamond Dr, David Blank is extorting money fro small diamond brokers around the country. What do you do when your previous lawyer steals your company name, collects the money from that company, uses your social to file taxes, because he is so greedy, calls you a criminal of wrong doing in court pleadings of the same thing he defended you against and won in the Court of Appeals, using your money to to file lawsuit after lawsuit after lawsuit using a disbarred lawyer to prepare the papers and do the dirty work? What do you do with such a bastard? Those pearly gates will not open to him or his team of thugs, but that is too late for justification. Any ideas out there? Bring them on.

Attorneys and judges are not happy with the negative publicity and take out their revenge on my son. What they forget is that I am not harassing anyone as they have done for 6 years. I am only stating truths and providing evidence of the facts. Judge Furgeson's successor, Judge Lindsay has given the liars a license to lie and steal by giving them immunity for all of their bad acts. Why are they so frightened that these mob lawyers need immunity? If they have done nothing wrong, then they would be in the clear without hiding behind a black robe.

Here is a man indicted for the identical activity the lawyers in Jeff's case have committed. The difference is this man is not an attorney with the protection of the courts. What we learn from this story is that there is a double standard. Our country is at the mercy of our judicial system who is governed by a bunch of judicial crooks. We must work to get these crooks behind their own bars.

The mob lawyers have a motion before the judge to DESTROY all of Jeff's records. The reason, I believe, is to prevent the media from exposing the crimes. In the past, the lawyers have demanded that Jeff agree to a gag order and now that he has refused, they are asking the judge to destroy the evidence. What is one to do?

Problem is the only way they would settle in the past was to collect every penny they think they are owed AND put this entire case and players under a gag order. Now they want to destroy evidence. Merry Christmas everyone.
On Friday, Jeff's condo complex had a fire. His building is in pretty bad shape. To add some salt to a bad wound, he did not carry any insurance. From what I gear, the nice judge Jernigan also gave Jeff a gift. She will not release a penny from the receivership fund that was supposed to be returned to Jeff 1. Yr ago. So in order for Jeff to get his home in living condition, a lawyer will have to make a motion, a hearing will be held, and in several months or more she may or nay not allow him to repair his home. He is enslaved and at the mercy of a very biased judge that only wastes to harm him.
Every day is worse then the previous one. They are out to end his life and it is working.
Merry Christmas, Your Honor.

Judges today have too much power and they abuse that power. Judge Jernigan is conducting such a witch hunt and hovering over my son's bones. There is not much left of him at this point. Who could withstand such torture as this Bankruptcy Court is dishing out. And why do you ask? Greedy lawyers who want to become rich with the blood of others. Unscrupulous is a kind word for these thieves. Like a pack of Pit Bulls, they are circling the carcass of others.

Attended a hearing yesterday. I actually heard and saw attorneys arguing over the balance of assets belonging to Jeff. Fighting with each other over the spoils of war. One lawyer (alleged creditor) stood in front of the judge actually begging for money released because "many of the families of the lawyers have been hurt waiting so long and it is not fair."

I wanted to scream out. What's not fair? Their claims are fraudulent. A family has been ruined by all of this illegal stuff but it is not theirs, it is Jeff's life that is in jeopardy and his life's work ruined. A biased judge has no place on this bench. She looked sympathetically at this attorney and just stated she understood.

A 2004 hearing to be held in Austin was postponed. Why in Austin you ask? Part of the elaborate plan to discredit Jeff. Since he is without council, there is no one to cross examine Elizabeth (Sherig) Morgan. If this exam is out of the district, then whatever she says becomes IT. She is disclosing client confidential information which is the attorney's most sacred rule. She and Larry Friedman have become cohorts in this illegal scheme. Their clients need to know how unethical they are

Peter Vogel, partner of Gardere law firm is supposed to manage and protect Baron's assets, instead, looted and packed his pockets along with the firms pockets and made certain he told false testimony to judge Furgeson, Vogel together with the bankruptcy trustee and judge Stacy Jernigan met in private to take away Baron's Civil liberties. For the past 3 yrs, Jeff who has been and is still without legal council, no due process, and a "slave" to the court, is trying to just survive, his Life's work destroyed, his juvenile diabetes trust destroyed just to enrich a bunch of greedy, scheming, unscrupulous, cheating lawyers and judges.

Does judge Jernigan think she is above the law? Once again she bypasses legal responsibility. While during a hearing, she was not pleased with the

witness's testimony so she clears the court room, coaches the witness on what she wants said, then brings in the galley, lawyers, and other witnesses. The original testimony now takes a 360 turn. Now she is happy. Is it lawful for a jug judge to coach a witness? If so, she would not have cleared the court room.
What do you think?

While everyone knows that lawyers get paid a lot of money, the payments to federal lawyers in Jeff's case is jaw dropping. Nearly \$8.5 million in lawyer fees have been billed by Federal Trustee Daniel Sherman and Federal Receiver Peter Vogel's lawyers. To fund their extravaganza, the lawyers have looted the medical research trust that Jeff had established to fund juvenile diabetes research. And while the plundering continues unabated, the lawyers prevent Jeff from having representation for defense.

Michael Collins I really hate to see sharks being used like this. Research shows that only about 1 in one hundred-thousand sharks ever attack a human and that is when the human got in their territory. My research shows that 100 in 100 hundred lawyers will attack humans even if they have to go out of their way to find one. Conditions are about the change for this well crafted scheme of racketeering ring.

Why will the judge not allow Jeff to have a lawyer?

At each of Jeff's court hearings, which the judge has ordered Jeff to physically attend, there are usually over 30 lawyers present. At first, this may not sound crazy until you realize this entire army of lawyers in the courtroom is hostile to Jeff, who faces these fierce predators by himself, defenseless.

From the court docs that Mr Cochell entered, it clearly shows Judge Jernigan's prejudice for her favorite attorneys and against any attorney she does not have a long standing with. This smells of cronyism inside and out. If she "likes" you, you are in her good graces. If she has no history or confrontational history you are at the bottom of her heap and get absolutely nowhere. Although the appeals court vacated the receivership over Jeff, the same lawyers have now placed Jeff in involuntary bankruptcy. Involuntary bankruptcy is a rare procedure usually reserved for insolvent companies where they forced to give their assets to creditors. In Jeff's case, the "creditors" are the lawyers who put Jeff in human receivership and have already taken \$7 million from Jeff. The judge in Jeff's bankruptcy case, Stacey Jernigan appears to be making unlawful rulings in order to keep Jeff in involuntary bankruptcy and is again preventing Jeff from having a lawyer.

Long hard fight with fraudulent lawyers giving fraudulent testimony but the panel of the higher court heard the story and understood what was going on.
